

# Fruit Dissection Activity Sheet

Can you match the seeds to the fruits they came from?

**Word Jumble:** Unjumble these letters to read these fruit related words!

A fruit is a plant part that holds seeds and develops from the flower part of a plant. In today's activity we dissected an apple, but can you think of any other fruit you have in your house? Draw a picture of one below and label its different parts.

A large, empty rectangular box intended for drawing and labeling a fruit.
